

BOMA Ottawa Introduces the Emerging Leaders Network

BOMA Ottawa would like to introduce members to our program, Emerging Leaders Network (ELN). This forum will help engage young Property Managers, Owners, and Service Industry Professionals from the Commercial Real Estate industry and provide an opportunity to collectively contribute and develop through events, social media, newsletters and professional development, while introducing BOMA.

In 2025, our new Committee members, consisting of member companies, will be evolving our goals and objectives, but here are just a few.

- ❖ *A great opportunity to get to know likeminded commercial real estate professionals (39 & under)*
- ❖ *Help build key relationships, value of participating with all members of BOMA*
- ❖ *Further enhance careers*
- ❖ *Planning, program benefits, recruitment & marketing and finally activities*

We are asking Senior Leaders of Property Management Companies and Allied Service Providers to provide this information on to your employees who you believe could benefit from this program. To have them participate please provide us with contact names and emails, as we will be creating a database of names/companies for the ELN, whereby we can encourage them to participate in upcoming events and education sessions.
