1005-141 Laurier Avenue West, Ottawa ON K1P 5J3

COURSE OUTLINE:

This seminar covers the operation and maintenance of commercial heating and air handling systems. Topics discussed will include:

- Overview of available heating systems
- System components and construction
- Heat distribution
- System operations and efficiency techniques
- Maintenance procedures
- Relevant Acts, Codes and Regulations
- Regulatory Authorities
- Safety Precautions

The course material is developed by BOMA Ottawa & Algonquin College and will be delivered by an Algonquin College instructor via their **On Line Education Platform**.

Registrants will receive log in instructions directly from **Algonquin College**.

Scott Howes is a Engineering Specialist with extensive experience and knowledge in Building Automation Controls and in HVAC technology. Scott has been in the Building Controls Industry for over twenty years in the Ottawa area.

In addition, Scott has been a Professor of part-time studies at Algonquin College since 2010 for the Building Environmental Systems Operator Class II program. Scott has a Bachelor of Science Degree in Industrial Electronics from Sam Houston State University.
