Name: _____

Company: _____

Phone: _____

Email: _____

If paying by cheque, please include this form and mail it, along with your cheque, payable to BOMA Ottawa after you have faxed or e-mailed your registration to:

BOMA Ottawa
1005-141 Laurier Avenue West, Ottawa ON K1P 5J3

COURSE OUTLINE:

This course of the series will provide operators with increased knowledge and awareness of the many ways increased energy efficiency can be achieved in commercial building operations:

- Overview of the building envelope and the building as a system
- Energy Audits and Retro-commissioning
- Lighting Systems and Controls
- IESP pricing
- Smart Metering
- Natural Gas Applications
- Water Conservation Opportunities
- Co-generation and Renewable Energy
- Tenant Energy Use and Tenant Engagement

The course material is developed by BOMA Ottawa & Algonquin College and will be delivered by an Algonquin College instructor via their **On Line Education Platform**.

Registrants will receive log in instructions directly from **Algonquin College**.

Scott Howes is a Engineering Specialist with extensive experience and knowledge in Building Automation Controls and in HVAC technology. Scott has been in the Building Controls Industry for over twenty years in the Ottawa area.

In addition, Scott has been a Professor of part-time studies at Algonquin College since 2010 for the Building Environmental Systems Operator Class II program. Scott has a Bachelor of Science Degree in Industrial Electronics from Sam Houston State University.
