

BUILDING SYSTEMS ESSENTIALS

Course 4: Building Control Systems

Half-Day Webinar

BOMA Ottawa, in partnership with Algonquin College, are proud to offer again an education series for building operators and other professionals in Commercial Real Estate.

The Building Systems Essentials is a series of half day "hands-on" seminars aimed to help Building Operators better understand the latest in how buildings function or to provide an overview to Commercial Real Estate professionals to better represent their buildings.

COURSE OUTLINE:

This seminar provides an introductory look at the control systems and devices that can be applied in the operation of commercial properties.

Participants will gain a basic understanding of efficiency and control strategies and how the following can be used to implement such strategies:

- sensors
• controllers and control devices
• control types
• building automation systems
• control system integration
• maintenance procedures
• relevant Acts, Codes, Standards and Regulations
• safety precautions

The course material is developed by BOMA Ottawa & Algonquin College and will be delivered by an Algonquin College instructor via their On Line Education Platform.

Registrants will receive log in instructions directly from Algonquin College.

Scott Howes is a Engineering Specialist with extensive experience and knowledge in Building Automation Controls and in HVAC technology. Scott has been in the Building Controls Industry for over twenty years in the Ottawa area.

In addition, Scott has been a Professor of part-time studies at Algonquin College since 2010 for the Building Environmental Systems Operator Class II program. Scott has a Bachelor of Science Degree in Industrial Electronics from Sam Houston State University.
