

BUILDING SYSTEMS ESSENTIALS

Course 5: Heating Systems

Half-Day In Class Seminar

BOMA Ottawa, in partnership with Algonquin College, are proud to offer again an education series for building operators and other professionals in Commercial Real Estate.

The Building Systems Essentials is a series of half day “hands-on” seminars aimed to help Building Operators better understand the latest in how buildings function or to provide an overview to Commercial Real Estate professionals to better represent their buildings.

COURSE OUTLINE:

This seminar covers the operation and maintenance of commercial heating and air handling systems. Topics discussed will include:

- Overview of available heating systems
- System components and construction
- Heat distribution
- System operations and efficiency techniques
- Maintenance procedures
- Relevant Acts, Codes and Regulations
- Regulatory Authorities
- Safety Precautions

The course material is developed by BOMA Ottawa together with Algonquin College and will be delivered by an Algonquin College instructor in their state of the art **Down-town Learning Centre**.

Registrants will receive course material and final instructions directly from **Algonquin College**.

Scott Howes is a Engineering Specialist with extensive experience and knowledge in Building Automation Controls and in HVAC technology. Scott has been in the Building Controls Industry for over twenty years in the Ottawa area.

In addition, Scott has been a Professor of part-time studies at Algonquin College since 2010 for the Building Environmental Systems Operator Class II program. Scott has a Bachelor of Science Degree in Industrial Electronics from Sam Houston State University.

Heating Systems
