

BUILDING SYSTEMS ESSENTIALS

Course 7: Building Electrical Systems

Half-Day In Class Seminar

BOMA Ottawa, in partnership with Algonquin College, are proud to offer again an education series for building operators and other professionals in Commercial Real Estate.

The Building Systems Essentials is a series of half day “hands-on” seminars aimed to help Building Operators better understand the latest in how buildings function or to provide an overview to Commercial Real Estate professionals to better represent their buildings.

COURSE OUTLINE:

An electrical system, within the context of a building, is a network of conductors and equipment designed to carry, distribute and convert electrical power safely from the point of delivery to the various loads around the building that consume the electrical energy This course introduces the fundamental concepts and principles of electricity in the following areas of instruction:

- Electrical system components
- Arc flash
- Emergency power supply
- System maintenance
- Switch poles and throws
- Electrical testing and troubleshooting
- Relevant Acts, Codes, Standards and Regulations
- Regulatory Authorities
- Health and Safety procedures

The course material is developed by BOMA Ottawa together with Algonquin College and will be delivered by an Algonquin College instructor in their state of the art **Down-town Learning Centre**.

Registrants will receive course material and final instructions directly from **Algonquin College**.

Scott Howes is a Engineering Specialist with extensive experience and knowledge in Building Automation Controls and in HVAC technology. Scott has been in the Building Controls Industry for over twenty years in the Ottawa area.

In addition, Scott has been a Professor of part-time studies at Algonquin College since 2010 for the Building Environmental Systems Operator Class II program. Scott has a Bachelor of Science Degree in Industrial Electronics from Sam Houston State University.

Building Electrical Systems

[Register on Line](#)

WHEN: November 16, 2023 8:30 a.m. to 12:00 p.m.

WHERE: Algonquin College Downtown Training Centre
700 Sussex Drive
(corner of Sussex/Rideau across from Rideau Centre)
