

BUILDING SYSTEMS ESSENTIALS

Course 2: Water Treatment & Fire Protection

Half-Day In Class Seminar

BOMA Ottawa, in partnership with Algonquin College, are proud to offer again an education series for building operators and other professionals in Commercial Real Estate.

The Building Systems Essentials is a series of half day “hands-on” seminars aimed to help Building Operators better understand the latest in how buildings function or to provide an overview to Commercial Real Estate professionals to better represent their buildings.

COURSE OUTLINE:

This seminar combines Water Treatment and Fire Protection Systems to provide participants with a good understanding of these systems and how they impact the operation and safety of commercial properties. Topics will include:

- Water and Humidification Systems
- Water Treatment
- Water Efficiency
- Chemical Handling
- Fire Alarm & Sprinkler Systems
- Exhaust Systems
- Maintenance Procedures & Record Keeping
- Relevant Acts & Codes
- Standards & Regulations
- Health & Safety Procedures

The course material is developed by BOMA Ottawa together with Algonquin College and will be delivered by an Algonquin College instructor in their state of the art **Downtown Learning Centre**.

Registrants will receive course material and final instructions directly from **Algonquin College**.

Scott Howes is a Engineering Specialist with extensive experience and knowledge in Building Automation Controls and in HVAC technology. Scott has been in the Building Controls Industry for over twenty years in the Ottawa area.

In addition, Scott has been a Professor of part-time studies at Algonquin College since 2010 for the Building Environmental Systems Operator Class II program. Scott has a Bachelor of Science Degree in Industrial Electronics from Sam Houston State University.

Water Treatment & Fire Protection
