## Building Knowledge One Course at a Time

### BUILDING SYSTEMS ESSENTIALS FOR BUILDING OPERATORS

#### Course 4—BUILDING CONTROL SYSTEMS

Half-Day Seminar

BOMA Ottawa, in partnership with Algonquin College, are proud to announce a new education series for building operators.

The Building Systems Essentials for Building Operators is a series of half day “hands-on” seminars aimed to help Building Operators better understand how buildings function.

#### COURSE OUTLINE:

This seminar provides an introductory look at the control systems and devices that can be applied in the operation of commercial properties.

Participants will gain a basic understanding of efficiency and control strategies and how the following can be used to implement such strategies:

- sensors
- controllers and control devices
- control types
- building automation systems
- control system integration
- maintenance procedures
- relevant Acts, Codes, Standards and Regulations
- safety precautions

The course material is developed by BOMA Ottawa and Algonquin College and will be delivered by an Algonquin College instructor at their downtown corporate training centre in Constitution Square.

#### INSTRUCTOR

**Ken Messervey** has over 18 years experience working in the mechanical, electrical, maintenance field. His work experience also includes 12 years as a Preventative Maintenance Chief with The Ottawa Carleton District School Board. He has worked extensively with all areas of preventative maintenance. Ken works closely with all departments within the board including EMC (Energy Management Centre), D & C (Design and Construction), and the maintenance division and has helped lead multiple energy conservation initiatives within the board.
